

Dear Mr. John Tierney,

I am a student at Salem State College. I am involved in an experiential public relations class where we have been paired to work with real clients. This is where my group and I came across an incredible company located in Salem State College's enterprise center. The company is called Innovative Computer Courses and has been in an incredible force in aiding the Massachusetts' job economy.

Innovative Computer Courses is a tremendous contributor to the development of human resources in Massachusetts. ICC teaches clients a wide range of computer skills to make them more marketable for employment. 100% of ICC graduates have found jobs after graduation. On average, graduates who are re-entering the workforce earn 20% more than they were previous to their ICC education. The Massachusetts' community should be aware of the resources that are out there to better themselves for job opportunities. I thought it would be of interest to you to know about this company and what they have to offer. Please do not hesitate to contact me with any questions or concerns.

Regards,

PR Major
